

TB5120UW

Home

Adapt 99%

Battery

Main Features

- Compatible with 80% solar inverters.
- Long lifespan, 6000 cycles.
- 5 years warranty.
- Warranty expires, enjoy trade-in discount.

Energy Storage LFP Battery

| Mode                    | TB5120                   |
|-------------------------|--------------------------|
| Battery                 |                          |
| Normal Voltage          | 51.2Vdc                  |
| Voltage Range           | 44.8 ~ 58.4V             |
| Max. Discharge Rate     | 1.5C                     |
| Max. Charge Rate        | 1C                       |
| Battery Type            | Li-ion (LFP)             |
| Operation Condition     |                          |
| Charging Temperature    | 0~55℃                    |
| Discharging Temperature | -20~60℃                  |
| Storage Temperature     | -20~45℃                  |
| Humidity                | <95%                     |
| Cooling Down Strategy   | Natural heat dissipation |
| Installation Method     | Wall-Mounted             |
| Weight                  | 47kgs                    |
| Product Size (W*D*H)    | 575*390*170mm            |
| Packaging               | Carton                   |
| IP Rating               | IP20                     |
| Communication Method    | RS485/CAN                |
| Warranty                | 5 Years                  |
